## The Great Pyramid

About 2560 BC      *Cairo, Egypt*

Colour it as above.

**The Great Pyramid** stands near the River Nile and it was built for King — Pharaoh Khufu in about 2560 BC. Two later kings also built their pyramids close by. Later some smaller pyramids thought to have been constructed for the Pharaohs' wives and other officials. These Pyramids served as their tombs.

**The Great Pyramid** stands 450 feet high and it is constructed of more than 2 million blocks of stone, with help of the tools that were used during those times.

# Mount Everest

China and Nepal

Colour it as above.

**Mount Everest** is the world's highest peak, which rises to 29,029 feet above sea level. It is in the middle of the Himalayan Mountains. The peak is named after Sir George Everest, who established its location and height in 1841.

At the top, the air does not have enough oxygen to breathe. So you have to take extra oxygen tanks with you.
